Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 25-44, insofar as drawn to antibody recognizing HCV type 3, classified in class 530, subclass 388.3, e.g.
- II. Claim 25-44, insofar as drawn to antibody recognizing HCV type 4, classified in class 530, subclass 388.3, e.g.
- III. Claims 25-44, insofar as drawn to antibody recognizing HCV type 5, classified in class 530, subclass 388.3, e.g.
- IV. Claims 25-44, insofar as drawn to antibody recognizing HCV type 2d, classified in class 530, subclass 388.3, e.g.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different specificities for HCV types and each is disclosed as being used to distinguish a specific viral type.

Because these inventions are distinct for the reasons given above and the search required for any one group is different from the search for any of the other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1648

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
